

Motion sensor - IP65 (A69291)

A69291

**Product description**

PIR, DALI CS, Corridor Sensor Module

Technical information

- Sensor module for DALI lighting systems
- Movement detection (PIR)
- Light intensity measurement
- Constant light control
- Time hysteresis to compensate for short-term fluctuations in brightness
- Setting option for basic brightness
- Simple configuration via DALI bus line using the DALI-Cockpit software
- Direct power supply via DALI line
- Version for indoor and outdoor use IP65
- Multimaster capable: several DALI CS modules can be used within one DALI line
