

Lunatone - DALI Repeater PS - 200mA - DIN rail (A69691)

A69691

Product description

Technical information

- Module for DIN rail mounting
- DALI Repeater, integrated power supply (200mA)
- Device to enhance the maximum DALI cable length from 300 m up to 600 m
- Enhancement and Transmission of the DALI-signals (bidirectional)
- Cascading (Series wiring) of up to 3 repeaters
- The maximum amount of DALI devices in the total network is limited to 64, the devices can be divided into the sub-circuits freely
- Type with integrated power supply available
- Repeater PS: Test button for simple function check of all DALI bus ballasts
- Input voltage range 100-240Vac
- Current consumption DALI 2mA
- Cascading of up to 3 repeaters is possible
